

Construction Crew Kid Builders!

Where worship and fun collide!

525 Garden Drive, Marysville, Ohio 43040

Introduction:

Blessings in the name of the Lord! The Construction Crew lesson plans provided at the web site are completely FREE. All I ask is two things: 1) That they are used for the intended purpose (to see kids come to know the Lord Jesus Christ in a true and living way); and 2) That they are not altered or reproduced for **sale** without the written permission of Deral Carson. Deral can be reached at the above address or by emailing deralcarson@mariongatheringplace.com.

These lessons are designed for children grades first through fifth, and will take children from knowing God, through salvation, water baptism, and Holy Spirit baptism. They will teach all the tenets of the Christian faith and complete them as believers in the Lord Jesus.

Each lesson is complete with object lessons, an overview, Scriptures, and a lesson plan. The lesson plans are completely written out in the right column, and outlined to the left. This way, any level of teacher can execute the lesson. Some lessons include skits that can be performed by church youth, while others have games. All material in these lessons is original material, and the little which is copyrighted by other sources is used by permission.

I strongly suggest that the lessons be taught in order, as they progress one from another. You may find that a few of the lessons are too big to be taught all in one class setting. Simply break those lessons down into two or three weeks. Don't just write off the remaining portion of the lesson, as all of it is important to a child's proper discipleship. Below are descriptions of each lesson plan:

Lesson Plan List

1. Basics Lesson 2
Are You an Ink Blot or a Name?
(Being a real Christian)
